DISEASES OF THE CHEST

AUTHOR INDEX

Volume X, January-December, 1944

Alexander, Harry L. Synopsis of Allergy. *Rev.* 85

Anderson, Arnold S. Chest Diseases in the Aged 329

Anderson, Sqdn. Ldr. Walter S., and J. B. MacKay. Broncholithiasis 427

Andosca, John B., and John A. Foley. Collapse Therapy in Bilateral Pulmonary Tuberculosis 95

Anglin, George C. Tuberculosis in Canada 149

Applebaum, Lt. Col. Irving L. The Treatment of Bronchial Lesions by the Inhalation of Nebulized Solution of Sodium Sulfathiazole 415

Banyai, Andrew L., and Anthony V. Cadden. The Rationale of the Therapeutic Administration of Massive Doses of Vitamin A in Tuberculous Diabetics 133

Brachman, David S., and William A. Hudson. A Study of Rejectees for Thoracic Abnormalities 234

Brahdy, Leopold. The Paradox of Vocational Disability 442

Brock, Benjamin L. The Role of the Bronchial Tree in the Pathogenesis of Pulmonary Tuberculosis 123

Cadden, Anthony V., and Andrew L. Banyai. The Rationale of the Therapeutic Administration of Massive Doses of Vitamin A in Tuberculous Diabetics 133

Charr, Robert, and J. Woodrow Savacool. Collapsed Lung—Postmortem Findings 103

Chisholm, Donald R. Tuberculosis Control in Hawaii 151

Cohen, Capt. Archibald C., and Capt. Jack Reiss. The Treatment of Pneumonia with Sulfonamide Drugs 337

Custer, Edward W. Tuberculous Meningitis Complicating Thoracic Surgery 145

Davison, Richard, and Edward P. Troy. Experiences in a Program for the Control of Pulmonary Tuberculosis in Chicago 54

Davison, Richard. Lung Resection for Chronic Pulmonary Infection 313

Eglee, Edward P. Report: Council on Postgraduate Medical Education 80

Eglee, Edward P. Report: Council on Postgraduate Medical Education 372

Fine, M. James, and Sidney Katz. Clinically Primary Tuberculosis of the Pericardium 60

Foley, John A., and John B. Andosca. Collapse Therapy in Bilateral Pulmonary Tuberculosis 95

Freer, Col. Arden. Occurrence of Pulmonary Tuberculosis in Supposedly Screened Selectees 197

Friedman, Bernard, Samuel S. Romendick, and Herbert F. Schwartz. Lower Lung Field Tuberculosis 481

Gordon, Israel. The Mechanism of Hypertrophic Pulmonary Emphysema 180

Graham, Evarts A. Indications for Total Pneumonectomy 87

Grimes, Maj. S. Butler, Capt. Alfred L. Kruger, Lt. Col. Albert W. Wallace, and Maj. John P. Medelman. Primary Atypical Pneumonia Simulating Infiltrative Pulmonary Tuberculosis 171

Hayes, Edward W. Tuberculosis As It Comes and Goes. *Rev.* 84

Hayes, Edward W. Teaching Tuberculosis in Medical Schools. Report of the Council on Undergraduate Medical Education 155

Hayes, Edward W. Report: Council on Undergraduate Medical Education 370

Hendricks, Chas. M. Report: Council on Military Affairs and Public Health 78

DISEASES OF THE CHEST

SUBJECT INDEX

Volume X, January-December, 1944

ALLERGY, Synopsis of—. *Harry L. Alexander. Rev.* 85

Atypical Pneumonia of Unknown Etiology. A Clinical, Roentgenological and Pathological Correlation. *Lt. Col. Frank B. Lusk and Capt. E. Kenneth Lewis* 19

Autonomic Nervous System in Relation to the Thoracic Viscera. *Albert Kuntz* 1

BOECK'S Sarcoid. *W. L. Meyer* 509

Bronchial Tree, Role of the— in the Pathogenesis of Pulmonary Tuberculosis. *Benjamin L. Brock* 123

Bronchial Lesions, Treatment of— by the Inhalation of Nebulized Solution of Sodium Sulfathiazole. *Lt. Col. Irving L. Applebaum* 415

Bronchiectasis, Diagnosis of—: Clinical and Roentgenological Observations. *Maj. Mark H. Joress, and Samuel A. Robins* 489

Bronchiectasis, Some Clinical Problems in—. *H. Corwin Hinshaw, and Herbert W. Schmidt* 115

Broncholithiasis. *Sqdn. Ldr. Walter S. Anderson and J. B. MacKay* 427

CANADA, Tuberculosis in—. *George C. Anglin* 149

Cancer of the Esophagus: Original Technique for Total Esophagectomy. *Edmundo Vasconcelos* 471

Cavernous Breathing: Is There Such A Sound? *George G. Ornstein* 407

Cervical Adenitis, Treatment of Tuberculous— With Vitamin A and D Ointment. *Walter Raab* 326

Chest Diseases in the Aged. *Arnold S. Anderson* 329

Chest, New Growths of the—. *Lt. Col. Carl W. Tempel* 277

Chest X-Ray. *Maj. Dan G. Morse* 515

Children, Tuberculosis in— and Young Adults. *Chester A. Stewart* 190

Chronic Pulmonary Infection, Lung Resection of—. *Richard Davison* 313

Clinically Primary Tuberculosis of the Pericardium. *M. James Fine* 60

Collapsed Lung— Post-Mortem Findings. *Robert Charr and J. Woodrow Savacool* 103

Collapse Therapy in Bilateral Pulmonary Tuberculosis. *John B. Andosca and John A. Foley* 95

Cystic Disease of the Lung with Iodized Oil Studies. *H. Vernon Madsen and H. B. Pirkle* 433

DIABETICS, Rationale of the Therapeutic Administration of Massive Doses of Vitamin A in Tuberculous—. *Andrew L. Banyai and Anthony V. Cadden* 133

Diagnosis of Bronchiectasis: Clinical and Roentgenological Observations. *Maj. Mark H. Joress and Samuel A. Robins* 489

Disability, Paradox of Vocational—. *Leopold Brahdy* 442

EMPHYSEMA, Mechanism of Hypertrophic Pulmonary—. *Israel Gordon* 180

Eosinophilia, Transitory Migratory Pulmonary Infiltration Associated With— (Loeffler's Syndrome). *J. Winthrop Peabody* 391

Esophagus, Cancer of the—: Original Technique for Total Esophagectomy. *Edmundo Vasconcelos* 471

Evolution of Tuberculosis as Observed During Twenty Years at Lymanhurst. *Minneapolis Board of Public Welfare. Rev.* 389

Experiences in a Program for the Control of Pulmonary Tuberculosis in Chicago. *Richard Davison and Edward P. Troy* 54

FUNNEL Chest: Report of a Case Successfully Treated by Chondrosternal Resection. *John Robert Phillips* 422

HAWAII, Tuberculosis Control in—. *Donald R. Chisholm* 151

Heart, Surgery of the—. *E. S. J. King. Rev.* 167

Hemoptysis, Clinical Concept of—, Use of Liver Extract. *Abst.* 168

Honor Roll 275

INDICATIONS for Total Pneumonectomy. *Evarts A. Graham* 87

(LOEFFLER'S Syndrome), Transitory Migratory Pulmonary Infiltrations Associated With Eosinophilia. *J. Winthrop Peabody* 391

Lower Lung Field Tuberculosis. *Samuel S. Romendick, Bernard Friedman and Herbert F. Schwartz* 481

Lung, Collapsed—, Post Mortem Findings. *Robert Charr and J. Woodrow Savacool* 103

Lung Resection for Chronic Pulmonary Infection. *Richard Davison* 313

MECHANISM of Hypertrophic Pulmonary Emphysema. *Israel Gordon* 180

Medical Schools, Teaching Tuberculosis in—. *Report of the Council on Undergraduate Medical Education* 155

Meningitis, Tuberculous— Complicating Thoracic Surgery. *Edward W. Custer* 145

Navy, Tuberculosis as a— Problem. *Lt. Comdr. Dean F. Smiley and Herbert A. Raskin* 210

Need for Planning the Economic Rehabilitation of the Tuberculous. *Edit.* 154

Nervous System, Autonomic— in Relation to the Thoracic Viscera. *Albert Kuntz* 1

New Era in the Fight Against Microbes. *Philipp Schonwald* 41

New Growths of the Chest. *Lt Col. Carl W. Tempel* 277

OBITUARIES
Chenik, Ferdinand 469
Cocke, Charles Hartwell 468
Denman, William Emmett 83
Disharoon, Lt. Col. Hugh B. 82
Farmer, William Carlton 388
George, McLeod M. 389
Hudson, Woodburn J. 165
Iglauer, Samuel 469
Randall, John Joseph 83
Reeves, John Luther 167
Simpson, Virgil E. 388
Washburn, Frank Hall 165

Occurrence of Pulmonary Tuberculosis in Supposedly Screened Selectees. *Col. Arden Freer* 197

PARADOX of Vocational Disability. *Leopold Brahdy* 442

Pericardium, Clinically Primary Tuberculosis of the—. *M. James Fine and Sidney Katz* 60

Pneumonectomy, Indications for Total—. *Evarts A. Graham* 87

Pneumonia, Atypical— of Unknown Etiology. A Clinical, Roentgenological and Pathological Correlation. *Lt. Col. Frank B. Lusk and Capt. E. Kenneth Lewis* 19

Pneumonia, Treatment of— With Sulfonamide Drugs. *Capt. Jack Reiss and Capt. Archibald C. Cohen* 337

Post-War Teaching of Tuberculosis. *Charles M. Hendricks* 246

Primary Atypical Pneumonia Simulating Infiltrative Pulmonary Tuberculosis. *Capt. Alfred L. Kruger, Lt. Col. Albert W. Wallace, Maj. John P. Medelman and Maj. S. Butler Grimes* 171

Problem of Tuberculosis in Apparently Healthy Man as Shown in the Routine Examinations for Induction into the Armed Forces. *C. Howard Marcy* 241

Problem of Tuberculosis in the Average Community. *H. J. Nimitz* 528

Pulmonary Tuberculosis, Collapse Therapy in Bilateral—. *John B. Andosca and John A. Foley* 95

Pulmonary Tuberculosis, Experiences in a Program for the Control of— in Chicago. *Richard Davison and Edward P. Troy* 54

Pulmonary Tuberculosis, Occurrence of— in Supposedly Screened Selectees. *Col. Arden Freer* 197

Pulmonary Tuberculosis, Role of the Bronchial Tree in the Pathogenesis of—. *Benjamin L. Brock* 123

Puerto Rico, Tuberculosis Problem in—. *J. Rodriguez Pastor* 447

RATIONALE of the Therapeutic Administration of Massive Doses of Vitamin A in Tuberculous Diabetics. *Andrew L. Banyai and Anthony V. Cadden* 133

Rehabilitation, Need for Planning the Economic— of the Tuberculous. *Edit.* 154

Rejectees, A Study of— for Thoracic Abnormalities. *William A. Hudson and David S. Brachman* 234

Relative Importance of the Anatomic and Physiologic Concept in Tuberculosis. *J. D. Riley* 317

Resection, Lung— for Chronic Pulmonary Infection. *Richard Davison* 313

Role of the Bronchial Tree in the Pathogenesis of Pulmonary Tuberculosis. *Benjamin L. Brock* 123

SARCOID, Boeck's. *W. L. Meyer* 509

Sodium Sulfathiazole, Treatment of Bronchial Lesions by the Inhalation of Nebulized Solution of—. *Lt. Col. Irving L. Applebaum* 415

Some Clinical Problems in Bronchiectasis. *H. Corwin Hinshaw and Herbert W. Schmidt* 115

Soviet Medicine. *Rev.* 161

Study of Rejectees for Thoracic Abnormalities. *William A. Hudson and David S. Brachman* 234

Sulfonamide Drugs, Treatment of Pneumonia With—. *Capt. Jack Reiss and Capt. Archibald C. Cohen* 337

Surgery of the Heart. *E. S. J. King. Rev.* 167

TEACHING, Post-War— of Tuberculosis. *Charles M. Hendricks* 246

Teaching Tuberculosis in Medical Schools. *Report of the Council on Undergraduate Medical Education* 155

Thoracic Abnormalities. A Study of Rejectees for—. *William A. Hudson and David S. Brachman* 234

Transitory Migratory Pulmonary Infiltrations Associated with Eosinophilia (Loeffler's Syndrome. *J. Winthrop Peabody* 391

Treatment of Bronchial Lesions by the Inhalation of Nebulized Solution of Sodium Sulfathiazole. *Lt. Col. Irving L. Applebaum* 415

Treatment of Pneumonia With Sulfonamide Drugs. *Capt. Jack Reiss and Capt. Archibald C. Cohen* 337

Treatment of Tuberculous Cervical Adenitis With Vitamin A and D Ointment. *Walter Raab* 326

Tubercle Bacilli, Use of Sodium Hypochlorite in the Concentration of—. *Nathan Nagle, John Lazarov and J. C. Willett* 47

Tuberculosis as It Comes and Goes. *Edward W. Hayes. Rev.* 84

Tuberculosis as a Navy Problem. *Lt. Comdr. Dean F. Smiley and Herbert A. Raskin* 210

Tuberculosis, Clinically Primary— of the Pericardium. *M. James Fine and Sidney Katz* 60

Tuberculosis Control in Hawaii. *Donald R. Chisholm* 151

Tuberculosis Control in Minnesota Hospitals for Mental Illness. *Edit.* 258

Tuberculosis in Canada. *George C. Anglin* 149

Tuberculosis in Children and Young Adults. *Chester A. Stewart* 190

Tuberculosis, Lower Lung Field—. *Samuel S. Romendick, Bernard Friedman and Herbert F. Schwartz* 481

Tuberculosis, Problem of— in Apparently Healthy Man as Shown in the Routine Examinations for Induction Into the Armed Forces. C. *Howard Marcy* 241

Tuberculosis, Problem of— in the Average Community. *H. J. Nimitz* 528

Tuberculosis Problem in Puerto Rico. *Edit.* 447

Tuberculosis, Relative Importance of the Anatomic and Physiologic Concept in—. *J. D. Riley* 317

Tuberculous Meningitis Complicating Thoracic Surgery. *Edward W. Custer* 145

USE of Sodium Hypochlorite in the Concentration of Tubercle Bacilli. *Nathan Nagle, John Lazarov and J. C. Willett* 47

VITAMIN A, Rationale of the Therapeutic Administration of Massive Doses of— in Tuberculous Diabetics. *Andrew L. Banyai and Anthony V. Cadden* 133

Vitamin A and D Ointment, Treatment of Tuberculous Cervical Adenitis With—. *Walter Raab* 326

Vocational Disability, The Paradox of—. *Leopold Brahdy* 442
